365 Data Centers Partners with Megaport to Provide Easy and Secure Access to Public Clouds

NORWALK, Conn., June 26, 2019 /PRNewswire/ -- **365 Data Centers**, a leading provider of hybrid IT data center services for carrier, content and enterprise customers, announces that it is now offering direct connectivity to leading public clouds via **Megaport**, a global leading Network as a Service (NaaS) provider. 365's new service, branded as *365 Global Connect*, is a *Megaport Connected Service. 365 Global Connect* utilizes Megaport to enable 365 customers with easy, on-demand and scalable access to leading public clouds.

By utilizing Megaport's SDN-based interconnection fabric, 365 customers can now combine 365 private cloud service offerings with a direct onramp service to leading public clouds to meet their specific virtual service requirements. As a *Megaport Connected Service, 365 Global Connect* offers 365 customers on-demand access to global public cloud service providers including Alibaba Cloud, AWS Google Cloud, IBM Cloud Azure, Nutanix Oracle, Salesforce and SAP.

"365 Data Centers chose to partner with Megaport because it is the most competitive elastic cloud provider in the industry with unparalleled service and reach," said Bob DeSantis, CEO of 365 Data Centers. "As a data center, network services, cloud and other managed services operator, 365 is an industry leader in optimizing redundancy and cost-efficiency for customers of our hybrid IT service offerings. *365 Global Connect* further enhances 365 Data Centers' value proposition for our existing and prospective customers."

"As IT stakeholders embrace public cloud as part of hyper-converged and hybrid cloud strategies, they are grappling with the connectivity requirements that will scale, and securely support interoperation of cloud-based services," commented Eric Troyer, Chief Marketing Officer for Megaport. "By integrating with leading cloud providers and connecting to over 120 cloud onramps globally, Megaport's software defined network enables rapid, on-demand connections to a vast ecosystem of service providers. We are pleased to partner with 365 Data Centers and to provide this critical access to 365's customers as we extend our collective reach and get customers directly connected to the public cloud."
